## THE SAVE

There were four friends Ari, Zee, Jonathan, and Zee's mom. They were going on a plane off to Peru, "I read a story that a guy flew 6 years ago to Peru but never came back" said Jonathan, then Zee was like "that's not true" and then Ari says something geeky as always.

30 minutes later we are at the Airport we all jump out the car, "YEAH WERE HERE WOOHOO" Zee mom said calm down everyone we all run to our plane because it's leaving in 40 seconds we all make it except..... Zee's mom the doors lock now we're all stuck and here so Ari says let's get on the plane everyone says ok and we yell through the door bye see you in see month.

5 hours later finally we all say except Ari she is so confused she thought the plane ride was 5 hours and a half hour we're all just like wow we did not notice we were the only people on the plane we get out and somehow we are in Peru and then the plane was gone then we go explore while Ari just crying about her calculation and all of a sudden Zee like look a shelter Jonathan it might be the guys cabin let go check it out everyone yeah.

We look inside and there was a guy and we woke him up and he said my name is Rand then explore looking for the volcano ahhh we all yell Jonathan like Rand rerolpxe the explorer Rand yes that is me I'm looking for a volcano it has a rare diamond and if you help me find it I'll split it yes we all yell Ari by telling how long you've been on here the volcano might erupt any time now." Zee "STOP SAYING GEEKY THINGS OK CHILL HAVE FUN. It's about mid night but we don't have anywhere to stay said Ari. "Rand' you guys can stay with me for now Zee we all fall asleep but me I go walk outside and I'm a mile away from the place we were staying then I hear noise no animal I know noise is like that so I start running then out of nowhere Ari there ahhhh dont scare me like that ok I won't said Ari then I heard the noise again so we saw a mountain and we climb all the way to the top.

Before you know Ari says it's a volcano then that thing climb up and it was like a combination of a bear and a hippopotamus then it started charging and when it

got close enough we scooch sideways and it fell in the lava. Then we a rand and It was morning by then and he said we need to get off this island then the volcan started rumbling then johnathan came and ari was rumbling and zee like what are you saying Ari said you said not to be geeky. zee just say it ok Ari aid so back awhile they did sacrifices for volcanoes and it worked then jonathan said let's do rock paper scissors wo goes in then we did it and lost but she would not go in then zee said i'll do it and she said Ari push me in but Ari could not stop crying i yelled DO IT please for i change my mine then Ari pushed me in then i said love you guys tell my mom i love her but the lava does not move "After we leave I should come back and double check that Zee is still there" Ari thought, then we all cry but rand then they find the diamond In a crack when Zee foot hit It then we All took one Diamond as a souvenir.

Then they walk to the airport and they go back to america and the mom is waiting and says were is Zee than Ari says she made a choice to save us and she died than they all cried and the explore just disappear Then Ari take Zee's mom hand and go for a walk and she says she might be alive because the water did not make a splash so on monday we will go to Peru Im glad you're the geeky one Ari and Jonathan is the active one and bossy said Zee's mom.

Seven days later the volcan is over there and do you have the rope said Ari yes i do said zee's mom said ok i'll climb down and see if she in a cave or something Ari said I HIT BOTTOM IM LOOKING AROUND I SEE Her said Ari omg ahhh im crying tears of joy Zee's mom said WERE COMING BACK UP HELP PULL US UP Ari said ok yes you're at the top ahhhh i'm falling.

Blaah the volcano goes it rumbles then Zee woke what happening i thought i died she said oh no the volcano is slowing rising and before you know the mom is gone and the kids jump in the water and swim and never looked back to that day.
