MISSING

“What are you going to do for the science fair” said Carly. I’m going to make comras to spi on my parents. Jhon you should not be doing all of theas hard projects. I know, but I want to keep having a 4.0. Ok I think you are a bit to series about school . Yea yea yea well this is my stop. Bi and come to my birthday party.

Next day (in school)

“Happy birthday Carly” said John, Isieh, and James. Thanks and I think I am going to get the first place prize for the science fair because it’s my birthday. “Ok everybody time to look at your projects” said the teacher. so John walked up to his stand and presented his volcano. “I just press this button and bacon soda and vinegar will mix and explode”he said. But it was a dud and the teacher said “ next time make something new and make sure it works

C+”. Then Carly went up and said “with a flick of a switch a graffiti machine will you guessed it shoot graffiti”. “This is very appropriate since it is your birthday A-.”

Bad timing

Next up John Isieh started clapping because they are best friends. John had a remote control spider camera to spy on his parents. “Ok I Just have to find them... I spotted them looks like they are arguing let’s turn the volume up. Wait they are saying that they are going to get divorced (cries) “I think that is enuf but i’m amazed that you could make that A+”
